Product information

Ball anvil Multimar 844 Tk

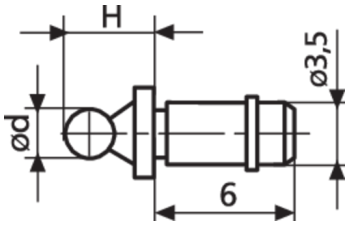
Product features
- Measuring ball made of carbide
- With cylindrical mounting shank and retainer ring which allows free rotation inside the bore of measuring arms 844 Te
- Manufacturing tolerance ball ± 2 µm

Application
- Especially suited for the measurement of internal or external helical gear wheels
- Use of convex contours
- Use for cone measurements

Item no.: **4502658**

Technical data

Shaft length	6 mm

Dimensions


Dimensions d in mm	6.096 mm
Dimension H	8.6 mm
