Product information

Dimensionair air gages (single master system) Millimar D-10000M

Item no.: **2095193**

Product features

- Operated with regular workshop compressed air (40-125 psi)
- An internal pressure regulator keeps the measuring pressure within the calibrated range
- Zero offset of the instrument with just one setting standard and the zero adjuster
- Clear display with fine dial graduation and needle thin pointer gives an accurate, reliable readout
- An integrated air filter removes dust and dirt particles from the air supply
- Equipment connection on the front of the device; hand tightening is sufficient for tight connections
- No recalibration required after changing the measuring equipment; measurement can be resumed immediately after setting the instrument to zero
- 4 models available, choice of mm or inches

Package contains

adapter for pneumatic plug gages, Federal compatible, air filter, supply hose AHO-2

Technical data

Range of analog display µm	± 7,6
Graduation mm	0,2
Display	Large analog scale with 2 tolerance markers
Scale reading	Dial diameter 82.6 mm / 3.25”
Compatibility	Federal
Features	1

Accessories

Order no.	Designation	Product type
2086962	Magnification kit	AMR-14
2201991	Particle filter, filter size 5µm	AFL-10
2201992	Replacement filter element for AFL-10 filter	AFL-21
2201993	Replacement filter element for AFL-24 filter	AFL-23
