

Product information

Double jet ring gage Millimar 6300

Product features

- Mahr / Mahr Federal nozzle ring gages have a large clearance tolerance, making them easier to insert into the bore to be measured and allowing a greater measuring range
- Due to a larger plug gage spacing and (optional) hard chrome-plated finish to the body, the nozzle plug gage has an extended service life
- The recessed measuring nozzles are located deep in the body of the plug gage, protecting them from damage
- Large nozzle dimensions prevent clogging with dirt and oil

Order information: Please always state when ordering: transmission ratio of the display unit (e.g. 2500:1), the nominal size to be measured and the specified workpiece tolerance

Item no.: **2105706**

Technical data

Nominal size from	45.000
Nominal size up to	52.000
Magnification	2500:1, 5000:1, 10000:1
Measuring span (text)	100µm / 50µm / 25µm
Compatibility	Mahr

Dimensions

Dimension D	127
Dimension B	25.40
