

Product information

Double jet ring gage Millimar 6300

Product features

- Mahr / Mahr Federal nozzle ring gages have a large clearance tolerance, making them easier to insert into the bore to be measured and allowing a greater measuring range
- Due to a larger plug gage spacing and (optional) hard chrome-plated finish to the body, the nozzle plug gage has an extended service life
- The recessed measuring nozzles are located deep in the body of the plug gage, protecting them from damage
- Large nozzle dimensions prevent clogging with dirt and oil

Order information: Please always state when ordering: transmission ratio of the display unit (e.g. 2500:1), the nominal size to be measured and the specified workpiece tolerance

Item no.: **2105710**

Technical data

| | |
|------------------------------|-------------------------|
| Nominal size from | 76.000 |
| Nominal size up to | 84.000 |
| Magnification | 2500:1, 5000:1, 10000:1 |
| Measuring span (text) | 100µm / 50µm / 25µm |
| Compatibility | Mahr |
