

Product information

Gage block comparator Precimar 826 PC

Product features

The 826 PC gage block measuring instrument is quick, reliable and highly accurate. An open and extremely rigid L-shaped stand forms the base for the two counteracting precision measuring probes and the measuring table.

Package contains

Display unit C 1202 + measuring module N 1702M-HR

Application

- Quick and easy high precision testing of European and US gage blocks up to 170 mm in length, as per ISO 3650

Item no.: **5350305**

Technical data

Stylus ball radius, upper probe	1.50
Application range mm	0.5 to 170
Stylus radius, lower probe	1.5 mm
Stylus ball radius, lower probe	1.50
Table surface (A x B) mm	60 mm x 55 mm
Direct measuring range [mm]	0,2
Repeatability [µm]	± 0,01
Mass [kg]	37
