

# Product information

## Dimensionair air gages (single master system) Millimar D-8000

### Product features

- Operated with regular workshop compressed air (40-125 psi)
- An internal pressure regulator keeps the measuring pressure within the calibrated range
- Zero offset of the instrument with just one setting standard and the zero adjuster
- Clear display with fine dial graduation and needle thin pointer gives an accurate, reliable readout
- An integrated air filter removes dust and dirt particles from the air supply
- Equipment connection on the front of the device; hand tightening is sufficient for tight connections
- No recalibration required after changing the measuring equipment; measurement can be resumed immediately after setting the instrument to zero
- 4 models available, choice of mm or inches

Item no.: 2095196

### Technical data

<b>Graduation value inches</b>	.00001"
<b>Scale reading</b>	Dial diameter 152.4 mm / 6"
<b>Compatibility</b>	Federal
<b>Features</b>	1
<b>Range of analog display inches</b>	± .00075"

### Accessories

### Package contains

adapter for pneumatic plug gages, Federal compatible, air filter, supply hose AHO-2

Order no.	Designation	Product type
2086961	Magnification kit	AMR-13
