

# Product information

## Double jet ring gage Millimar 6300

### Product features

- Mahr / Mahr Federal nozzle ring gages have a large clearance tolerance, making them easier to insert into the bore to be measured and allowing a greater measuring range
- Due to a larger plug gage spacing and (optional) hard chrome-plated finish to the body, the nozzle plug gage has an extended service life
- The recessed measuring nozzles are located deep in the body of the plug gage, protecting them from damage
- Large nozzle dimensions prevent clogging with dirt and oil

**Order information:** Please always state when ordering: transmission ratio of the display unit (e.g. 2500:1), the nominal size to be measured and the specified workpiece tolerance

Item no.: **2105707**

### Technical data

<b>Nominal size from</b>	52.000
<b>Nominal size up to</b>	60.000
<b>Magnification</b>	2500:1, 5000:1, 10000:1
<b>Measuring span (text)</b>	100µm / 50µm / 25µm
<b>Compatibility</b>	Mahr

### Dimensions

<b>Dimension D</b>	127
<b>Dimension B</b>	25.40
