# **Product information**

# **Ball anvil Multimar 844 Tk**

### **Product features**

- · Measuring ball made of carbide
- With cylindrical mounting shank and retainer ring which allows free rotation inside the bore of measuring arms 844 Te
- Manufacturing tolerance ball ± 2 µm

# **Application**

- Especially suited for the measurement of internal or external helical gear wheels
- Use of convex contours
- Use for cone measurements

Item no.: 4502622

## **Technical data**

Shaft length	6 mm
Chart longth	0 111111

#### **Dimensions**

Dimensions d in mm	0.62 mm
Dimension H	3.1 mm
