# **Product information**

6 mm

# Ball anvil Multimar 844 Tk

#### **Product features**

- Measuring ball made of carbide
  With cylindrical mounting shank and retainer ring which allows free rotation inside the bore of measuring arms 844 Te
- Manufacturing tolerance ball  $\pm 2 \,\mu m$

## Application

- Especially suited for the measurement of internal or external helical gear wheels
- Use of convex contours
- Use for cone measurements

Item no.: 4502632

#### **Technical data**

Shaft length

## **Dimensions**

Dimensions d in mm	1.35 mm
Dimension H	3.9 mm
