

Product information

MarSurf CNC modular

Product features

MarSurf CNC modular. CNC measuring stations based on standard components

A standard surface measuring station can be expanded into a user-friendly, semi-automatic CNC measuring station simply by adding auxiliary table axes and possibly a measuring cabinet.

Application

Measurement close to the production area

- Pallet measurement
- Topography measurement
- Multiple measuring points on one part without reclamping
- Automatic X-axis alignment
- Universal measuring station for a wide variety of measuring tasks
- Automatic zenith search

Item no.: **6710582**
